

# YOUR PERSONAL GUIDE TO AN UNCERTAIN WORLD

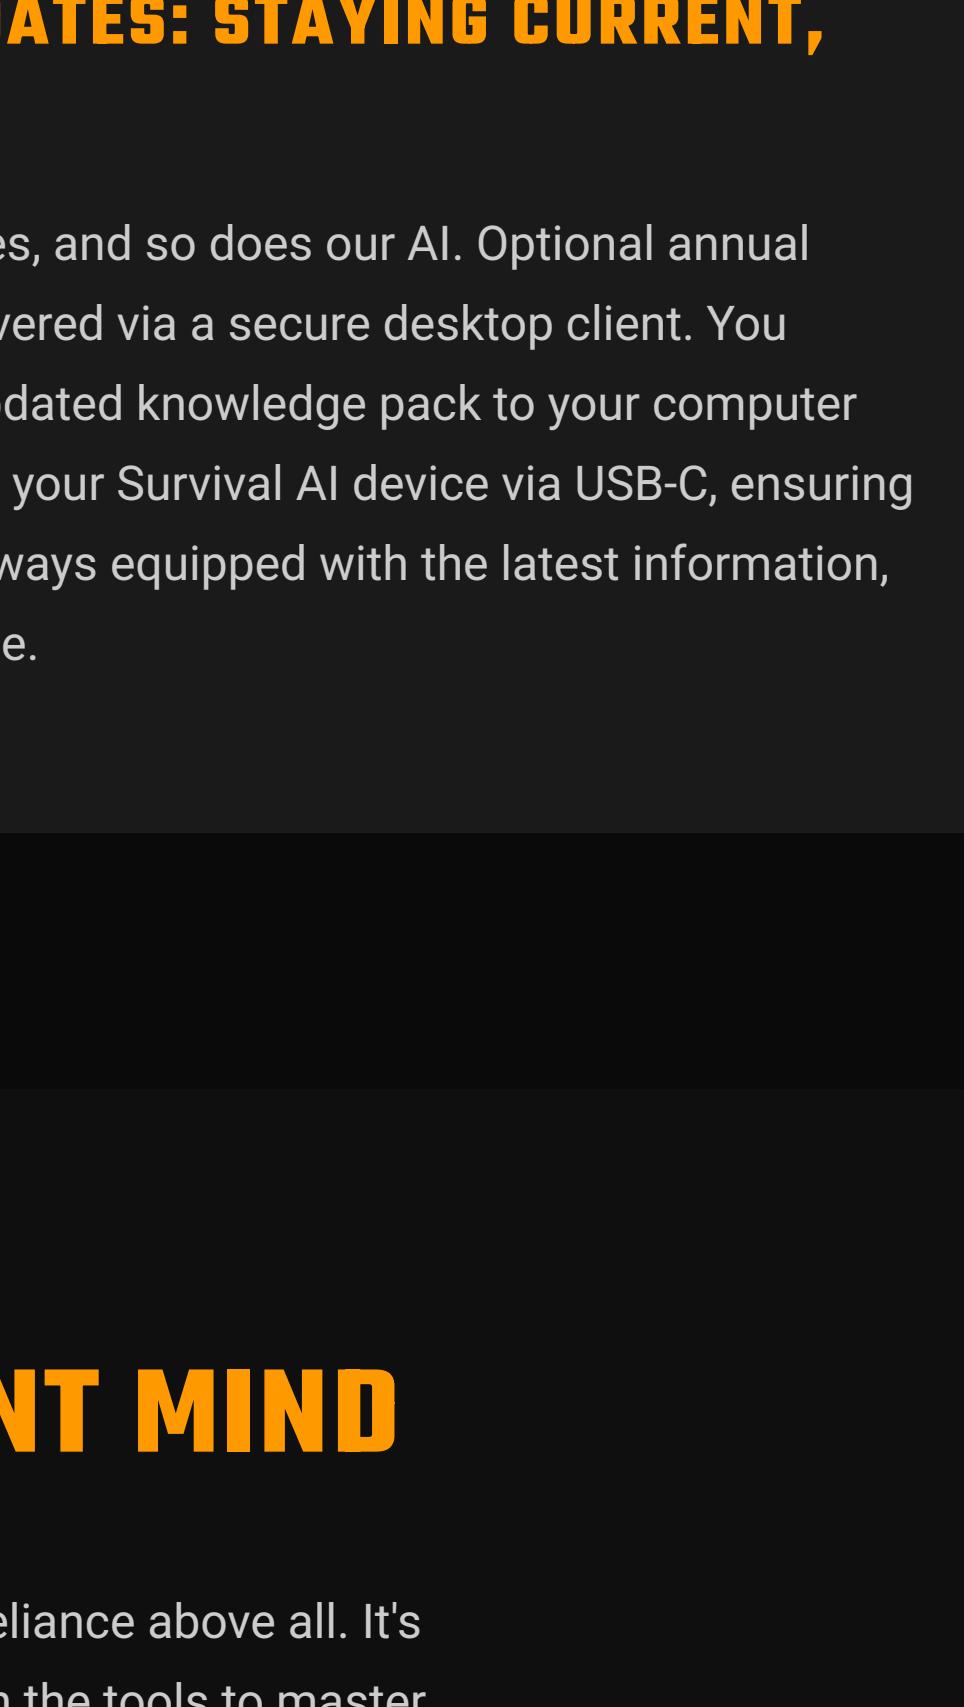

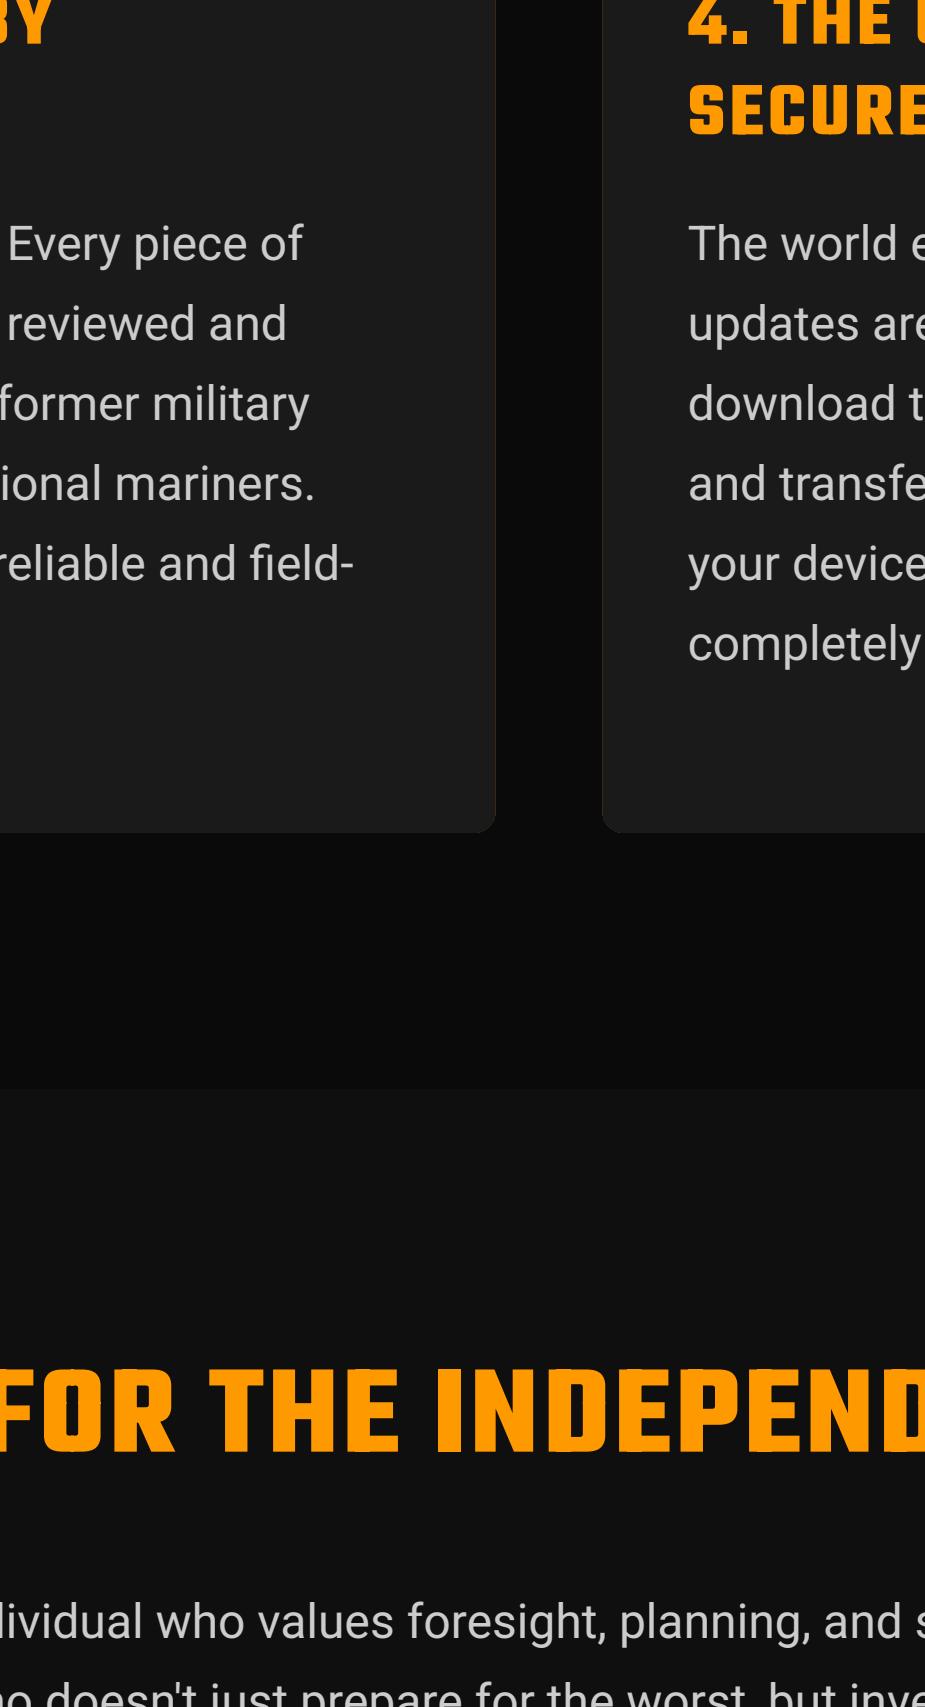

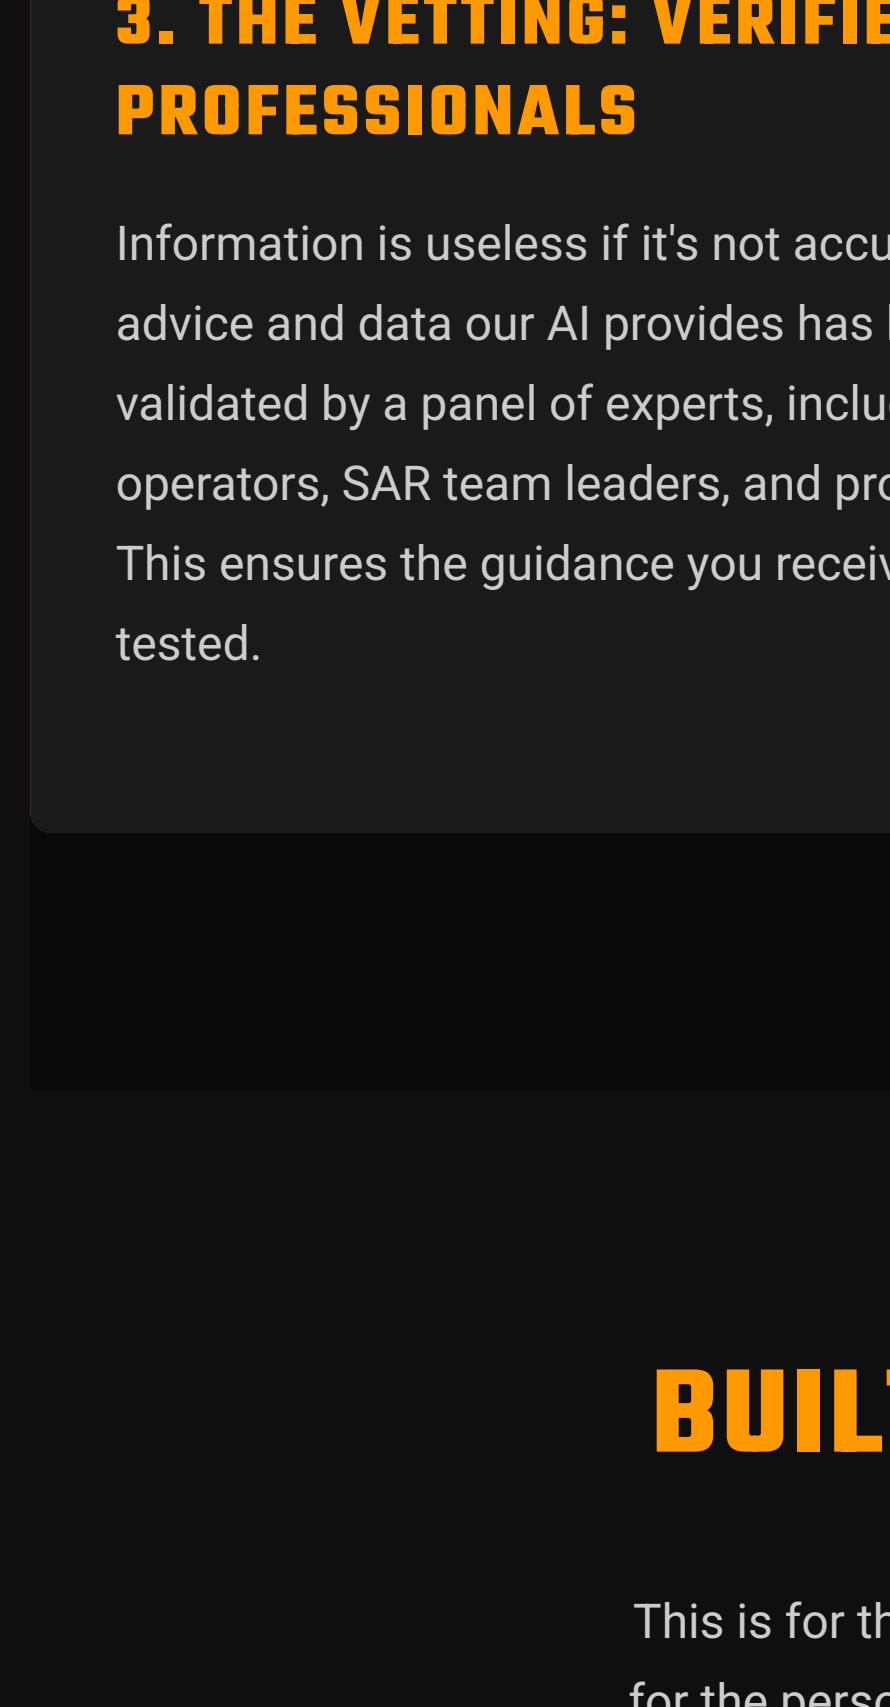

Survival AI provides the critical knowledge you and your family need when traditional systems fail. It's your plan, your knowledge, and your peace of mind, all in one offline device. The ultimate tool for self-reliance.

SECURE YOUR FAMILY'S PREPAREDNESS

## CONSIDER THE SCENARIOS...

*A widespread power grid failure plunges your region into darkness. Communication networks go silent. Or a natural disaster cuts you off completely. In these moments, access to information is not a convenience – it is the ultimate currency. While others are isolated and confused, you have a strategic advantage: an expert advisor that needs no signal and never sleeps.*

## THE SOLUTION: AN EXPERT IN YOUR PACK

### YOUR CONNECTION TO SAFETY, EVEN WHEN DISCONNECTED

Survival AI operates 100% offline. No signal, no Wi-Fi, no problem. Our advanced AI models and critical data are stored directly on the device, providing you with life-saving information when you are completely isolated.

### FORGED IN EXTREMES, BUILT FOR THE UNFORGIVING

Based on the military-grade Panasonic Toughbook, Survival AI is waterproof, shockproof, and built to withstand the harshest environments on Earth. It's a tool, not a toy. It's engineered for when failure is not an option.

### A LIBRARY OF ESSENTIAL SKILLS

The Founder's System comes pre-loaded with our three core knowledge modules: advanced medical care, technical repair and engineering, and long-term sustenance and security. It's a comprehensive library for real-world independence.

## THE BRAINS OF THE OPERATION: HOW THE AI WORKS

### 1. THE FOUNDATION: ENTERPRISE-GRADE LLM

We selected a specialized version of the Llama 3.2-3B model as our foundation. It's renowned for its incredible efficiency and powerful reasoning capabilities, making it the perfect choice for an offline, portable device where battery life and performance are critical.

### 2. THE TRAINING: CREATING A SURVIVAL EXPERT

This is where the magic happens. Our base model underwent a rigorous fine-tuning process. We fed it a curated library of over 10,000 documents, including military survival manuals, emergency medicine textbooks, naval guides (NGA and Coast Guard publications), and standard operating procedures from search and rescue experts.

### 3. THE VETTING: VERIFIED BY PROFESSIONALS

Information is useless if it's not accurate. Every piece of advice and data our AI provides has been reviewed and validated by a panel of experts, including former military operators, SAR team leaders, and professional mariners. This ensures the guidance you receive is reliable and field-tested.

### 4. THE UPDATES: STAYING CURRENT, SECURELY

The world evolves, and so does our AI. Optional annual updates are delivered via a secure desktop client. You download the updated knowledge pack to your computer and transfer it to your Survival AI device via USB-C, ensuring your device is always equipped with the latest information, completely offline.

## BUILT FOR THE INDEPENDENT MIND

This is for the individual who values foresight, planning, and self-reliance above all. It's for the person who doesn't just prepare for the worst, but invests in the tools to master it.

The Family Protector

The Prudent Planner

The Independent Homesteader

The Serious Adventurer

## WHAT OUR SUPPORTERS ARE SAYING

*"In a whiteout, when GPS fails, having a tool that can guide you through avalanche terrain or suggest a snow shelter isn't a luxury—it's a lifesaver. This is the missing piece in our high-altitude kit."*

— Expedition Leader, Alpine Operations

*"We operate hundreds of miles from shore. The ability to diagnose a complex engine problem or get advice on a critical medical issue when satellite comms are down... you can't put a price on that. This device changes the entire risk calculation for my family's safety."*

— A remote property owner and preparedness planner

## BECOME A FOUNDING MEMBER

To start manufacturing, we are launching a reservation campaign to gather 200 founding members. Secure your place in the first production run with a small, fully refundable deposit. This shows us you're serious, and in return, you get a significant discount and first access.

**Our Guarantee:** We need 200 reservations by April 30, 2026, to begin production. If we don't meet this goal, your deposit will be **100% refunded** automatically. No questions asked.

**FOUNDING MEMBERS SECURED: 7 / 200**

Once we reach 200 reservations, production will begin and we will contact you to finalize your order and secure the Founder's price.

**THE FOUNDER'S SYSTEM**

**\$100** Refundable Deposit

## FREQUENTLY ASKED QUESTIONS

### DO I NEED A SUBSCRIPTION TO USE THE DEVICE?

No. The core functionality and the core knowledge modules work forever, completely offline, without any recurring fees. Optional annual updates for the modules will be available for a flat fee.

### HOW IS THE AI UPDATED IN REMOTE LOCATIONS?

Updates are downloaded when you have an internet connection via a secure desktop client. You can then sideload the update to your Survival AI device via USB-C before your next expedition.

### WHAT IS THE WARRANTY AND SUPPORT POLICY?

Each device comes with a 3-year professional warranty covering hardware failure in extreme conditions. The Founder's System also includes lifetime priority support.
